---

Jackie Chan is the undefeated Kung Fu Master who dishes out the action in traditional Jackie Chan style. When a young boy sets out to learn how to fight from the Master himself, he not only witnesses some spectacular fights, but learns some important life lessons along the way. I saw this film under the title JACKIE CHAN & THE KUNG FU KID. It's a Chinese propaganda piece, shot in Beijing, and designed to pass on ideals of behaviour to 'educate' audiences. Thus the tale is about an obnoxious 15 year old boy who mistreats his family and friends in a bid to meet up with his all-time favourite star, Jackie Chan. Inevitably he learns some important life lessons along the way, not least from Jackie himself.

I suppose 2009 must have marked the year that Jackie became heavily involved with the Chinese government. I notice that this film was put out by the Beijing-based Children's Film Studio, which has been making propaganda films for children since the 1980s. The story of the film isn't so bad but the execution is; this is a very cheap production barely above the Z-grade shot-on-video level.

The main characters are all very dull and their acting abilities limited. The moralising is so heavy-handed as to be off-putting. Jackie himself gets to take part in a few fight scenes, but rather unforgivably he appears to be doubled more than a few times, which is a definite no-no for fans of the martial artist. My favourite scene is a nice cameo from old-timer Jackie co-star Yuen Wah, playing himself. Originally and more accurately titled Looking For Jackie, this 2009 Chinese family comedy has been retitled for its UK release in a cynical attempt to cash-in on Jackie Chan's recent Karate Kid remake. But with little screen time for the martial arts legend, does the film offer enough elsewhere to placate fans angry at being duped into picking up this DVD?

A little research shows that Jackie Chan & The Kung Fu Kid was certainly a hit at the domestic box office, setting a new record for local children and family friendly productions. The film is not unwatchable and there is some ironic fun to be had, mostly due to its stiff lipped and po-faced tone. However, for anyone expecting to see much of Jackie Chan, martial arts action in general, or even an engaging 'rights of passage' tale about one boy's journey into manhood, will be left disappointed.
